Nurse Consultation	£40
Weight clinics with Veterinary nurse	Free
Dental checks with Veterinary nurse	Free
Out of hours consult <10pm	£150
Out of hours consult >10pm	£200
Pain clinic consultation (Vet)	£90
Pain clinic review (Vet)	£60
Pain clinic review (nurse)	£45

Please note that non registered clients will be subject to a surcharge out of hours and on weekends/bank holidays. This is to help to ensure our weekend clinics and out of hours service will always be available to our registered clients.

Vaccinations

All vaccinations are inclusive of a full health check and examination with a vet. Discounts are available for litters of puppies/kittens. Please contact us for prices.

Dogs

Dogs do not need to be vaccinated against everything every year. They require leptospirosis vaccination annually and then every 3 years they will have DHP (distemper, Hepatitis and Parvovirus).

Dog booster Leptospirosis only	£55
Dog Booster DHP and Leptospirosis	£60
Puppy course (primary Vaccinations- 1 st and 2 nd vaccinations)	£95
2 nd Puppy vaccination when first done elsewhere	£65

Bury St Edmunds Veterinary Centre

Kennel Cough vaccine	£35
Rabies Vaccination	£70

Cats

Cats do not need to be vaccinated against everything every year. They require Calici and Herpes virus (cat flu) vaccination annually, known as Ducat and then every 3 years they will have FELV (feline leukaemia) and Panleukopenia as well, known as Tricat + FELV

Cat booster Ducat only	£55
Cat booster Tricat + FELV	£65
Kitten course (primary Vaccinations- 1 st and 2 nd vaccinations)	£100
2 nd Kitten vaccination when first done elsewhere	£70
Rabies Vaccination	£70

Rabbits

Rabbits require yearly vaccination against myxomatosis and RHD1 and RHD2 (rabbit haemorrhagic disease). There is now a triple vaccination meaning they will only need one vaccination a year providing they have had an RHD2 vaccine within the 12 months prior to vaccination. If not they will require a single RHD2 vaccine before the triple vaccine.

Myxi/RHD1/RHD2 combination vaccination	£60
Rabbit RHD2	£30

Neutering

All prices given are inclusive of the procedure, general anaesthetic, pain relief on the day and pain relief to go home, buster collar and all post op checks.

Dogs

Castration

0-10kg	£250
10-20kg	£270

40kg+	£340

Bury St Edmunds Veterinary Centre

Spay- Traditional *(We also offer laparoscopic bitch spays)*

0-10kg	£310
10-20kg	£330
20-40kg	£360
40kg+	£420

Cats

Castration	£75
Spay	£100

Rabbits/Guinea pigs

Castration	£120
Spay	£135

Dentals

If you think your pet requires any dental work then we would advise you book in for a free dental check with one of our veterinary nurses and they will be able to give you a more accurate estimate.

All prices given are inclusive of general anaesthesia, hospitalisation, the dental procedure, and any extractions required, pain relief and antibiotics as required on the day as well as medications to go home with and post op checks. We also perform full mouth dental x-rays which are included in these prices.

Weight	Descale	Dental with minor extractions	Dental with major extractions	Full mouth extractions
0-10kg	300	480	580	700
10-20kg	310	490	600	730
20-40kg	325	505	620	740
40kg+	340	520	640	800

Caesarean Sections

Prices given are inclusive of anaesthesia, the surgical procedure, pain relief, pain relief to go home with, assessment of the puppies/kittens and post operative checks.

Bury St Edmunds Veterinary Centre

Consultations, scans, and other treatment if required will be charged as appropriate. Out of hours prices will be subject to additional out of hours consult and out of hours time fees.

Please note that if they present requiring their second section our policy is to spay at the same time as further breeding of these bitches/Queens would be detrimental to their welfare. We do offer a £100 discount if we spay at the same time with any C-section.

C-sections are major abdominal surgery and repeated C-sections make severe complications like ruptured uterus more likely to occur. These complications can result in pain and suffering, and in some cases death. Therefore, further breeding after 2 sections would be needlessly risking the life and welfare of the queen/bitch in question and is not something we will be complicit in.

	With Spay	Without Spay
Cat	£700	£850
Dog 0-20kg	£1000	£1150
Dog 20-40kg	£1150	£1300
Dog 40kg +	£1300	£1450

Laparoscopic Surgery

We offer various laparoscopic surgeries, the most widely known of these is the keyhole spay. Laparoscopic surgery is minimally invasive so offers the advantages of quicker recoveries, reduced post operative pain, smaller wounds and reduced incidence of post operative wound interference.

Spay- Laparoscopic (Keyhole)

0-20kg	£650
20-40kg	£700
40kg+	£750

Cryptorchid castrate, lap assisted

This is an add on cost to the normal castrate price for removing the abdominally retained testicle. The cost of the castrate procedure is listed above and ranges from £250-340. The additional cost for removing the abdominally retained testicle is £160.

Lap assisted Gastropexy

This is a procedure that can be performed in breeds at high risk of GDV (typically large and giant breeds) to massively reduce the risk of this occurring. It can be performed at the same time as either a laparoscopic spay or a routine castration procedure or as a standalone procedure in really high risk breeds like Great Danes.

Lap assisted pexy add on to castrate	£300
--------------------------------------	------

Bury St Edmunds Veterinary Centre

Lap assisted pexy add on to lap spay	£200
Lap assisted pexy standalone procedure	£500
